PAPER DESIGN®

Architectural and production company Paper Design® specializes in the design and production of unique architectural ceiling systems and interior solutions for commercial, hospitality, retail, public and exhibition spaces. Our portfolio includes kinetic ceilings, decorative ceiling installations and bespoke architectural objects.

Our non-flammable architectural non-woven material is classified M1 according to the French fire classification system and is available in a wide range of colors, textures and densities. It enables architects and designers to create innovative, expressive and technically reliable interior concepts.

DROP PAPER®

PARCHMENT

Characteristics:

- Fire resistance:	M1 (European)
- Texture:	«parchment»
- Translucency:	30%
- Coloring material:	acrylic
- Density:	60gr
- Recyclable	

Drop Paper® material in shade PARCHMENT has an expressive texture and color, is unique in its characteristics and coloring handmade technique.

COMPRESSED

Purple
COMPRESSED

Characteristics:

- Fire resistance:	M1 (European)
- Texture:	«compressed»
- Translucency:	30%
- Coloring material:	powder dye, acrylic
- Density:	60gr
- Recyclable	

Drop Paper® material in shade COMPRESSED has an expressive texture and color, is unique in its characteristics and coloring handmade technique. The compressed texture is achieved by mechanical pressing.
Shiny pieces (gold/silver leaf) are applied in several stages after coloring.

METEOR RAIN
Field

Characteristics:

- Fire resistance:	M1 (European)
- Texture:	«meteor rain»
- Translucency:	30%
- Coloring material:	powder dye, acrylic
- Density:	60gr
- Recyclable	

Drop Paper® material in shade METEOR RAIN has an expressive texture and color, is unique in its characteristics and coloring handmade technique. The shining effect is achieved by applying metallized powder in shades: «gold» and «copper» in several stages after coloring the material.

Soft
STEEL

Hard
STEEL

Characteristics:

- Fire resistance:	M1 (European)
- Texture:	«steel»
- Translucency:	30%
- Coloring material:	powder dye, acrylic
- Density:	60gr
- Recyclable	

Drop Paper® material in shade STEEL has an expressive texture and color, is unique in its characteristics and coloring handmade technique. The shine of «steel» is achieved by applying metallized powder on a clean or painted material.

DROP PAPER®

P E A R L

Characteristics:

- Fire resistance:	M1 (European)
- Texture:	«pearl»
- Translucency:	30%
- Coloring material:	powder dye, acrylic
- Density:	60gr
- Recyclable	

Drop Paper® material in shade PEARL has an expressive texture and color, is unique in its characteristics and coloring handmade technique. The «pearl» effect is achieved by applying powder dye in the shade «natural mica» to the material in several stages.
